

OpenPro ERP Solutions

The first web based ERP software

First released in 1999 OpenPro developed the industry's first Web Based ERP solution. OpenPro's web based features provide companies with the flexibility and strength to perform in the most competitive environments.

**Is your company growing fast? - No Problem
We have a solution for you!**

Are you out growing Quickbooks or Peachtree? Are you one of the millions of small businesses that have outgrown this limited, off-the-shelf software package? Thousands of companies just like yours have already switched to OpenPro, the powerful online business application that ties your company together.

**Looking for a rapid Return on Investment?
We have a solution for you!**

OpenPro provides a rapid Return on Investment. OpenPro ERP regularly provides solid, measurable financial benefits within the first year of implementation. We have more than 17 years of experience in the field of business management software. Based on our experience, we continue to provide modern tools and innovative methods to improve your financial growth. "Companies who incorporate real-time data collection into their ERP efforts will realize a 50 percent greater return on investment than companies without such capabilities". *Gartner Group Survey*.

**Want to have GLOBAL ACCESS to your business?
We have a solution for you!**

If you need to have access to your business from anywhere around the globe, OpenPro is the best solution for your company. OpenPro is accessible by a desktop computer, laptop, PDA, or cell phone. No client side software is needed. OpenPro is packed with security features to keep your data safe and secure.
