

Symbol MOTOROLA and OpenPro TimeCard Management Software.(WMS)

OPEN-PRO Time card module supports a variety of special functions regular time over time calculation, management reporting, supervisor updating, missing time reports. A complete web based time card module.

Gather employee time via hardware, software, or remote devices. Choose just one or as many different collection methods as you need to accommodate your organization's requirements.

Employee Time Cards

Time cards with company, employee information and mag strip or barcodes.

Hardware Time Collection

Hardware time clock options give employees the familiarity of a wall-mounted time clock, with all the benefits of the TimeForce software. Our clocks offer one or a combination of the following features:

- Swipe card entry
- Proximity reader
- Bar code scanner
- Biometric (fingerprint) reader
- Hand shape recognition
